

How It Works at Your Campus

1

Approve & schedule

Pick the day, time slot and room. Any classroom or cafeteria works - we bring and set up everything, and pack it all out after.

2

We staff from your community

Instructors recruited from your campus community where possible - every instructor background-checked and RoboThink-certified.

3

Free Demo Day

Students and families try it: a 15-minute Jr build, a 15-minute Senior build, and a 15-minute coding taste. Scheduled after facility clearance.

4

Families enroll online

Flyers and QR codes provided by us. Parents register and pay at myrobothink.com/swhouston - no collection or admin for the campus.

5

Classes run all term

8-class program on campus. Every child goes home with a framed build photo and learning note each week, plus progress reports each term.

WHO BRINGS WHAT

YOUR CAMPUS PROVIDES

A room with tables (classroom or cafeteria)
An after-school time slot
That's it.

WE BRING EVERYTHING ELSE

Kits, tablets & laptops, all materials
Certified instructor + insurance
Camera keepsakes, flyers & registration

Zero cost to the campus - families enroll directly

This program is not sponsored or endorsed by the Katy Independent School District.
